

What is Vancouver Home Maintenance doing differently?

With the spread of COVID-19, we have increased our already high sanitation standards. **Nothing is more important to us than the health & safety of our team, our customers and our community.**

- Our entire workforce has been self quarantined for a minimum 3 week period.
- Our staff will speak to clients from a cell phone instead of the usual conversation at the door.
- We will only be conducting exterior services at this time.
- Payments can be made online or over the phone instead of in person.
- We have taken extra precautions to clean all equipment and vehicles.
- Hand sanitizers, gloves, and masks are available for all staff.
- All interior service work is on hold until it's been deemed safe to work by the Government health officials.
- While working outside our crews will work with the recommended 6 feet apart from each other.
- All staff will travel in separate vehicles.
- We have asked our team to use extra caution when evaluating their own personal health and will have staff go home if they are not feeling well.
